

IMDG - UN card

UN 0009

UN number 0009		Shipping name AMMUNITION, INCENDIARY AMMUNITION, BRANDSTIFTENDE				
Class 1.2G	Packing group —	Hazard labels 1.2G	Marine pollutant Maybe	EmS F-B, S-X	<i>ADR transport category: 1 ADR tunnel: (B1000C)</i>	
Hazard labels 		Marking UN 0009 AMMUNITION, INCENDIARY				
Packaging	Can be packed in approved, tested packaging according to packing instruction P130. Note: Large and robust explosives articles, normally intended for military use, without their means of initiation or with their means of initiation containing at least two effective protective features, may be carried unpackaged. When such articles have propelling charges or are self-propelled, their ignition systems shall be protected against stimuli encountered during normal conditions of carriage. A negative result in Test Series 4 on an unpackaged article indicates that the article can be considered for carriage unpackaged. Such unpackaged articles may be fixed to cradles or contained in crates or other suitable handling devices. The packagings authorized may exceed a net mass of 400 kg (PP67). Can also be packaged in large packagings (LP101).					
Mixed packaging	The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.					
Remarks	There are no special provisions for this substance.					
Properties and observations	Ammunition containing incendiary composition. Except when the composition is an explosive per se, it also contains one or more of the following: a propelling charge with primer and igniter charge; a fuze with burster or expelling charge.					
Tank type:	Not allowed	Transport in bulk		Orange panel		
Tank provisions:	—	Not allowed		0009		
Stowage and segregation						
Stowage	Must be protected from sources of heat (SW1).					
Segregation	Check the segregation table for sea transport. There are no special requirements for segregation.					
Placarding of the transport unit	Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.					
Foodstuff	The substance is not required to be kept separate from food and feed.
