| <b>Packaging</b> Can be packed in approved, tested packaging according to packing instruction P139. Note: The ends of the detonating cord shall be sealed, for example, by a plug firmly fixed so that the explosive cannot escape. The ends of flexible detonating cord shall be fastened securely (PP71). Inner packagings are not required when they are in coils (PP72).                                                                                                              |                           |                                                                           |                                                              |                        |                                                      |  |
| <b>Mixed packaging</b> The substance may be packaged with other substances in the same outer packaging if: <ul style="list-style-type: none"><li>- it is permitted to load the substances together, and</li><li>- the substances do not react dangerously with one another.</li></ul>                                                                                                                                                                                                     |                           |                                                                           |                                                              |                        |                                                      |  |
| <b>Remarks</b> There are no special provisions for this substance.                                                                                                                                                                                                                                                                                                                                                                                                                        |                           |                                                                           |                                                              |                        |                                                      |  |
| <b>Properties and observations</b> See glossary of terms in appendix B of the IMDG Code.                                                                                                                                                                                                                                                                                                                                                                                                  |                           |                                                                           |                                                              |                        |                                                      |  |

| <b>Stowage</b> Must be protected from sources of heat (SW1).                                                                                                                                                                                                                                                                                                                                                                                                                              |                           |                                                                           |                                                              |                        |                                                      |  |
| <b>Segregation</b> Check the segregation table for sea transport. There are no special requirements for segregation.                                                                                                                                                                                                                                                                                                                                                                      |                           |                                                                           |                                                              |                        |                                                      |  |
| <b>Placarding of the transport unit</b> Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back.<br><br>The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea. |                           |                                                                           |                                                              |                        |                                                      |  |
| <b>Foodstuff</b> The substance is not required to be kept separate from food and feed.                                                                                                                                                                                                                                                                                                                                                                                                    |                           |                                                                           |                                                              |                        |                                                      |  |
