

IMDG - UN card

UN 1361

UN number 1361		Shipping name CARBON KULSTOF / KØNRØG				
Class 4.2	Packing group III	Hazard labels 4.2	Marine pollutant Maybe	EmS F-A, S-J	ADR transport category: 4 ADR tunnel: (E)	
Hazard labels 		Marking UN 1361 CARBON				
Packaging		Can be packed in approved packaging according to packing instruction P002. Note: 5H1, 5L1 and 5M1 bags are allowed when carried in closed vehicles or containers (PP12). Can also be packaged in large packagings (LP02).				
Mixed packaging		The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.				
Remarks		If the chemical or physical properties of a substance covered by this description are such that, when tested, it does not meet the established defining criteria for the class or division listed in column 3, or any other class or division, it is not subject to the provisions of the IMDG Code except in the case of a marine pollutant where 2.10.3 applies (SP 223). The provisions of the IMDG Code do not apply to: non-activated carbon blacks of mineral origin; a consignment of carbon if it passes the tests for self-heating substances as reflected in the Manual of Tests and Criteria (see 33.4.3.3), and is accompanied by a certificate from a laboratory accredited by the competent authority, stating that the product to be loaded has been correctly sampled by trained staff from that laboratory and that the sample was correctly tested and has passed the test; and carbons made by a steam activation process (SP 925).				
Properties and observations		See entry above.				
Tank type:	T1	Transport in bulk		Orange panel		
Tank provisions:	TP33	Not allowed		1361		
Stowage and segregation						
Stowage		Must be protected from sources of heat (SW1). Keep as cool as reasonably practicable (H2).				
Segregation		Check the segregation table for sea transport. There are no special requirements for segregation.				
Placarding of the transport unit		Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.				
Foodstuff		The substance is not required to be kept separate from food and feed.				
Limited quantities (LQ) <i>Combination packaging</i> Inner: Not allowed Outer: <i>Trays</i> Inner: Not allowed Outer:			Excepted quantities (EQ) <i>Combination packaging</i> Inner: Not allowed Outer:
