

IMDG - UN card

UN 2071

UN number 2071		Shipping name AMMONIUM NITRATE BASED FERTILIZER AMMONIUMNITRATBASERET GØDNING				
Class 9	Packing group III	Hazard labels 9	Marine pollutant Maybe	EmS F-H, S-Q	ADR transport category: ADR tunnel:	
Hazard labels 		Marking UN 2071 AMMONIUM NITRATE BASED FERTILIZER				
Packaging		Can be packed in approved packaging according to packing instruction P002. Can also be packaged in large packagings (LP02).				
Mixed packaging		The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.				
Remarks		This entry may only be used for ammonium nitrate based compound fertilizers. They shall be classified in accordance with the procedure as set out in the Manual of Tests and Criteria, part III, section 39 (SP 193).				
Properties and observations		Usually granules. Wholly or partly soluble in water. These mixtures may be subject to self-sustaining decomposition if heated. The temperature in such a reaction can reach 500 °C. Decomposition, once initiated, may spread throughout the remainder, producing gases which are toxic. None of these mixtures is subject to the explosion hazard. Transport of AMMONIUM NITRATE liable to self-heating sufficient to initiate decomposition is prohibited.				
Tank type:	Not allowed	Transport in bulk		Orange panel		
Tank provisions:	–	Not allowed		2071		
Stowage and segregation						
Stowage		For special stowage provisions, see 7.4.1.4 and 7.6.2.11.1.1 of the IMDG Code (SW26).				
Segregation		Check the segregation table for sea transport. The substance belongs to group: ammonium compounds (SGG2).				
Placarding of the transport unit		Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.				
Foodstuff		The substance is not required to be kept separate from food and feed.				
Limited quantities (LQ)		Parcel label:		Excepted quantities (EQ)		
Combination packaging				Combination packaging		
Inner: 5 kg				Inner: 30 mg		
Outer: 30 kg				Outer: 1000 mg		
Trays				Must be packed in an intermediate packaging with cushioning material. Max 1000 parcels per vehicle/container.		
Inner: 5 kg						
Outer: 20 kg
