

IMDG - UN card

UN 3048

UN number 3048		Shipping name ALUMINIUM PHOSPHIDE PESTICIDE ALUMINIUMPHOSPHID-PESTICID				
Class 6.1	Packing group I	Hazard labels 6.1	Marine pollutant Maybe	EmS F-A, S-A	<i>ADR transport category: 1 ADR tunnel: (C/E)</i>	
Hazard labels 		Marking UN 3048 ALUMINIUM PHOSPHIDE PESTICIDE				
Packaging		Can be packed in approved packaging according to packing instruction P002. Note: Packagings shall be hermetically sealed (PP31).				
Mixed packaging		The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.				
Remarks		This entry applies only if it is demonstrated, on the basis of tests, that the substance, when in contact with water, is not combustible nor shows a tendency to auto-ignition and that the mixture of gases evolved is not flammable (SP 153). All pesticides can only be carried under the provisions of this class if accompanied by a certificate supplied by the shipper stating that, when in contact with water, it is not combustible and does not show tendency to autoignition, and that the mixture of gases evolved is not flammable. Otherwise, the provisions of class 4.3 shall be applicable (SP 930).				
Properties and observations		Waxed pellets, adequately stabilized powder, tablets or crystals. Highly toxic if swallowed, by skin contact or by inhalation.				
Tank type: T6		Transport in bulk Not allowed		Orange panel 3048		
Tank provisions: TP33						
Stowage and segregation						
Stowage		Stay clear of living quarters (SW2). If under deck, stow in a mechanically ventilated space (SW5).				
Segregation		Check the segregation table for sea transport. There are no special requirements for segregation.				
Placarding of the transport unit		Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.				
Foodstuff		The substance must be kept separate from food and feedstuffs.				
Limited quantities (LQ) <i>Combination packaging</i> Inner: Not allowed Outer: <i>Trays</i> Inner: Not allowed Outer:			Excepted quantities (EQ) <i>Combination packaging</i> Inner: Not allowed Outer:
