

IMDG - UN card

UN 3315

UN number 3315		Shipping name CHEMICAL SAMPLE, TOXIC KEMIKALIEPRØVE, GIFTIG				
Class 6.1	Packing group I	Hazard labels 6.1	Marine pollutant Maybe	EmS F-A, S-A	ADR transport category: 1 ADR tunnel: (E)	
Hazard labels 		Marking UN 3315 CHEMICAL SAMPLE, TOXIC				
Packaging	Can be packed in approved packaging according to packing instruction P099.					
Mixed packaging	The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.					
Remarks	This entry may only be used for samples of chemicals taken for analysis in connection with the implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on their Destruction. The transport of substances under this entry shall be in accordance with the chain of custody and security procedures specified by the Organization for the Prohibition of Chemical Weapons. The chemical sample may only be transported provided prior approval has been granted by the competent authority or the Director General of the Organization for the Prohibition of Chemical Weapons and providing the sample complies with the following conditions: 1. it shall be packaged according to packing instruction 623 in the International Civil Aviation Organization's Technical Instructions for the Safe Transport of Dangerous Goods by Air; and 2. during transport, it shall be accompanied by a copy of the document of approval for transport, showing the quantity limitations and the packing provisions (SP 250).					
Properties and observations	This entry may only be used for samples of chemicals taken for analysis in connection with the implementation of the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on their Destruction. The transport of substances under this entry shall be in accordance with the chain of custody and security procedures specified by the Organization for the Prohibition of Chemical Weapons. The chemical sample may only be transported providing prior approval has been granted by the competent authority or the Director General of the Organization for the Prohibition of Chemical Weapons. During transport, the packaging shall be accompanied by a copy of the document of approval for transport, showing the quantity limitations and the packing requirements.					
Tank type:	Not allowed	Transport in bulk		Orange panel		
Tank provisions:	—	Not allowed		3315		
Stowage and segregation						
Stowage	Stay clear of living quarters (SW2).					
Segregation	Check the segregation table for sea transport. There are no special requirements for segregation.					
Placarding of the transport unit	Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.					
Foodstuff	The substance must be kept separate from food and feedstuffs.					
Limited quantities (LQ) <i>Combination packaging</i> Inner: Not allowed Outer: <i>Trays</i> Inner: Not allowed Outer:			Excepted quantities (EQ) <i>Combination packaging</i> Inner: Not allowed Outer:
