Hazard labels		Marking				
Packaging Mixed packaging Remarks Properties and observations The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another. IMDG						
Tank type:		Transport in bulk			Orange panel	
Tank provisions:						
Stowage and segregation						
Stowage Segregation Placarding of the transport unit Foodstuff Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea. The substance is not required to be kept separate from food and feed.
