

IMDG - UN card

UN 1363

UN number 1363		Shipping name COPRA KOPRA				
Class 4.2	Packing group III	Hazard labels 4.2	Marine pollutant Maybe	EmS F-A, S-J	<i>ADR transport category: 3 ADR tunnel: (E)</i>	
Hazard labels 		Marking UN 1363 COPRA				
Packaging Can be packed in suitable packaging according to packing instruction P003. Note: Any sift-proof, tearproof receptacle may be used (PP20). Can also be packaged in large packagings (LP02).						
Mixed packaging The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.						
Remarks The packages, including bales, are exempt from labelling provided that they are marked with the appropriate class (e.g. "class 4.2") (SP 29). This substance shall preferably have been weathered for not less than one month before shipment unless a certificate from a person recognized by the competent authority of the country of shipment states a maximum moisture content of 5% (SP 926). Packages, with the exception of bales, shall also display the proper shipping name and the UN number of the substance that they contain in accordance with 5.2.1. In any case, the packages, including bales, are exempt from class marking provided that they are loaded in a cargo transport unit and that they contain goods to which only one UN number has been assigned. The cargo transport units in which the packages, including bales, are loaded shall display any relevant labels, placards and marks in accordance with chapter 5.3 (SP 973).						
Properties and observations Dried kernels of coconuts, with a penetrating rancid odour which may taint other cargoes.						
Tank type: Not allowed		Transport in bulk		Orange panel		
Tank provisions: –		Not allowed		1363		
Stowage and segregation						
Stowage		Must be protected from sources of heat (SW1). Provide a good through ventilation for bagged cargo. Double strip stowage is recommended. The illustration in 7.6.2.7.2.3 shows how this can be achieved. During the voyage regular temperature readings shall be				
Segregation		Check the segregation table for sea transport. There are no special requirements for segregation.				
Placarding of the transport unit		Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.				
Foodstuff		The substance is not required to be kept separate from food and feed.				
Limited quantities (LQ) <i>Combination packaging</i> Inner: Not allowed Outer: <i>Trays</i> Inner: Not allowed Outer:			Excepted quantities (EQ) <i>Combination packaging</i> Inner: Not allowed Outer:
