

IMDG - UN card

UN 1950

UN number 1950		Shipping name AEROSOLS AEROSOLER				
Class 2.1 / 2.2	Packing group —	Hazard labels 2.1 / 2.2	Marine pollutant Maybe	EmS F-D, S-U	<i>ADR transport category: 1,2,3 ADR tunnel: (D)/(E)</i>	
Hazard labels If flammable:  Or else:  In addition: + 6.1 (if toxic) + 5.1 (if oxidizing) + 8 (if corrosive)		Marking UN 1950 AEROSOLS				
Packaging Can be packed in suitable packaging according to packing instruction P207. Note: For waste aerosols carried in accordance with special provision 327, the packagings shall have a means of retaining any free liquid that might escape during carriage, e.g. absorbent material. The packagings shall be adequately ventilated to prevent the creation of dangerous atmospheres and the build-up of pressure (PP87). Can also be packaged in large packagings (LP200).						
Mixed packaging The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.						
Remarks Aerosol dispensers shall be provided with protection against inadvertent discharge. Aerosols with a capacity not exceeding 50 mL containing only non-toxic constituents are not subject to the provisions of the IMDG Code (SP 190). For aerosols or receptacles containing toxic substances, the limited quantity value is 120 mL. For all other aerosols or receptacles, the limited quantity value is 1,000 mL (SP 277). Waste aerosol containers and gas cartridges can be transported under UN 1950 or 2037, for reprocessing/disposal purposes. Protection against movement and accidental discharge is not necessary if measures are taken to avoid dangerous pressure build-up. Waste gas cartridges which were filled with non-flammable, non-toxic Class 2 gases and which have been perforated are not subject to the IMDG Code (SP 327). The provisions of 6.2.4 shall be met (SP 344). Large packagings conforming to the packing group III performance level used in accordance with packing instruction LP02 of 4.1.4.3, as prescribed in the IMDG Code (amendment 37-14), may be used until 31 December 2022 (SP 381). Waste aerosols or waste gas cartridges authorized for transport under special provision 327 shall only be transported on short international voyages. Long international voyages are authorized only with the approval of the competent authority. Packagings shall be marked and labelled and cargo transport units shall be marked and placarded for appropriate sub-division of class 2 and, if applicable, the subsidiary hazard(s) (SP 959).						
Properties and observations —						
Tank type:	Not allowed	Transport in bulk		Orange panel		
Tank provisions:	—	Not allowed		1950		
Stowage and segregation						
Stowage	For AEROSOLS with a maximum capacity of 1 L: category A. For AEROSOLS with a capacity above 1 L: category B. For WASTE AEROSOLS: category C, clear of living quarters (SW22).					
Segregation	Check the segregation table for sea transport. For AEROSOLS with a maximum capacity of 1 L: segregation as for class 9. Stow "separated from" class 1 except for division 1.4. For AEROSOLS with a capacity above 1 L: segregation as for the appropriate subdivision of class 2. For WASTE AEROSOLS: segregation as for the appropriate subdivision of class 2 (SG69). "Seperated from": May not be loaded into the same transport unit.					
Placarding of the transport unit	Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.					
Foodstuff	The substance is not required to be kept separate from food and feed.					
Limited quantities (LQ) <i>Combination packaging</i> Inner: 1 L (120 mL, if toxic) Outer: 30 kg <i>Trays</i> Inner: 1 L (120 mL, if toxic) Outer: 30 kg		Parcel label:  Excepted quantities (EQ) <i>Combination packaging</i> Inner: Not allowed Outer:
