

IMDG - UN card

UN 2000

UN number 2000		Shipping name CELLULOID CELLULOID				
Class 4.1	Packing group III	Hazard labels 4.1	Marine pollutant Maybe	EmS F-A, S-I	<i>ADR transport category: 3 ADR tunnel: (E)</i>	
Hazard labels 		Marking UN 2000 CELLULOID				
Packaging Can be packed in approved packaging according to packing instruction P002. Note: Celluloid may also be transported unpacked on pallets, wrapped in plastic film and secured by appropriate means, such as steel bands as a full load in closed vehicles or containers. Each pallet shall not exceed 1 000 kg (PP7). Can also be packaged in large packagings (LP02).						
Mixed packaging The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.						
Remarks If the chemical or physical properties of a substance covered by this description are such that, when tested, it does not meet the established defining criteria for the class or division listed in column 3, or any other class or division, it is not subject to the provisions of the IMDG Code except in the case of a marine pollutant where 2.10.3 applies (SP 223). Table tennis balls manufactured from celluloid are not subject to this Code where the net mass of each table tennis ball does not exceed 3.0 g and the total net mass of table tennis balls does not exceed 500 g per package (SP 383).						
Properties and observations Ignites readily. When involved in a fire, evolves toxic fumes; in enclosed cargo spaces, these fumes may form an explosive mixture with air.						
Tank type:	Not allowed	Transport in bulk		Orange panel		
Tank provisions:	—	Not allowed		2000		
Stowage and segregation						
Stowage There are no special requirements for stowage.						
Segregation Check the segregation table for sea transport. There are no special requirements for segregation.						
Placarding of the transport unit Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.						
Foodstuff The substance is not required to be kept separate from food and feed.						
Limited quantities (LQ) <i>Combination packaging</i> Inner: 5 kg Outer: 30 kg <i>Trays</i> Inner: 5 kg Outer: 20 kg		Excepted quantities (EQ) <i>Combination packaging</i> Inner: 30 mg Outer: 1000 mg Must be packed in an intermediate packaging with cushioning material. Max 1000 parcels per vehicle/container.
