| <b>Properties and observations</b> Yellow flakes. Particularly if wetted with small quantities of water, a mixture with combustible material may ignite, following impact or friction. When involved in a fire, or in contact with water or acids, decomposes, evolving oxygen. Highly irritating to skin, eyes and mucous membranes. |                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |                                  |                        |                                                            |  |
