Packaging Can be packed in approved packaging according to packing instruction P002. Note: Packagings shall be hermetically sealed (PP31). Can also be packaged in large packagings (LP02).						
Mixed packaging The substance may be packaged with other substances in the same outer packaging if: - it is permitted to load the substances together, and - the substances do not react dangerously with one another.						
Remarks If the chemical or physical properties of a substance covered by this description are such that, when tested, it does not meet the established defining criteria for the class or division listed in column 3, or any other class or division, it is not subject to the provisions of the IMDG Code except in the case of a marine pollutant where 2.10.3 applies (SP 223).						
Properties and observations Hygroscopic yellow powder with an unpleasant odour. On contact with moisture, evolves highly flammable vapours such as carbon disulphide (UN 1131, which has a flashpoint of -30 °C c.c. and a very low ignition temperature of 100 °C). When confined, can cause an explosion due to the wide explosive limits of the vapours. Finely divided dust forms explosive mixtures in air. Care should be taken when opening cargo transport units in case carbon disulphide vapours are present.						
Tank type: T1		Transport in bulk		Orange panel		
Tank provisions: TP33		Not allowed		3342		
Stowage and segregation						
Stowage Stay clear of living quarters (SW2).						
Segregation Check the segregation table for sea transport. There are no special requirements for segregation.						
Placarding of the transport unit Containers, semi-trailers and tank containers must be marked with enlarged hazard labels (placards) on all four sides. Railway wagons must at least be marked with placards on both sides. All other transport units, e.g. trucks etc., must at least be placarded on both sides and at the back. The placards must have a size of at least 250 x 250 mm, and be of such quality that the labeling is still visible after 3 months at sea.						
Foodstuff The substance is not required to be kept separate from food and feed.
